The authors would like to thank those people who have made significant contributions towards the final form of MORE! INTERNATIONAL:

Oonagh Wade and Rosamund Cantalamessa for their expertise in working on the manuscripts, their useful suggestions for improvement, and the support we got from them.

Lucia Astuti and Markus Spielmann, Helbling Languages, Ron Ragsdale and James Dingle, Cambridge University Press, for their dedication to the project and innovative publishing vision.

Our designers, Amanda Hockin, Greg Sweetnam, Barbara Bonci, Craig Cornell and Niels Gyde for their imaginative layouts and stimulating creativity. Also, our artwork assistants, Silvia Scorzoso and Francesca Gironi, for their dedicated work .

Every effort has been made to trace the owners of any copyright material in this book. If notified, the publisher will be pleased to rectify any errors or omission.

Answer Keys	page 78

Introduction

The Teacher's Resource Pack for *MORE! 1* contains a range of photocopiable materials for you to use alongside the Student's Book. It will help provide a complete set of materials for the classroom, with further resources available on the *MORE!* website, www.cambridge.org/elt/more

The Teacher's Resource Pack contains the following:

- Introduction with Test marking scheme
- Entry Test and Answer Key
- Teaching Notes for the photocopiable communication activities and answer keys
- Grammar practice activities and photocopiable communication activities
- Unit Tests
- Tests for Two Units
- Term Tests
- End of Year Test
- Test Answer Keys and Tapescripts

The contents are arranged by these areas in the order that you will need to use them as the course progresses.

Entry Test

The Entry Test has two possible functions; it can be used as a diagnostic tool to assess students on what they are already able to do, or for remedial work before students begin the Starter Unit. You can find the answer key directly after the test.

Teaching notes for the photocopiable communication activities

These contain step-by-step instructions for all of the photocopiable activities. In addition, there are answers for the communication activities, where relevant, and answers for all of the grammar practice activities.

Grammar practice activities and photocopiable communication activities

The grammar practice exercises cover specific areas of key grammar from each unit. They can be used as extension activities for fast finishers or students who need further practice.

The communication activities reflect the key grammar and/or vocabulary in each unit. They are designed to activate new language in a communicative context.

They cover a range of fun and motivating activity types, including board games, information gap activities, ordering activities and descriptions.

Unit Tests

These are single page tests, which cover the grammar, vocabulary and language from each unit. They should be used at the end of the relevant unit.

Tests for Two Units

In addition to the Unit Tests, there are six tests for every two units of the book.

Each test consists of six parts, broken down as detailed below:

Vocabulary

This is divided into two or three different tasks. These test students' ability to identify lexis, spell words correctly and use new words in the correct context.

Grammar

The exercises in this section are designed to test students' knowledge of the key verb forms they have studied and their understanding of key language at sentence level.

Reading

There is one reading text followed by a list of comprehension questions. These are designed to test students on the type of sub-skills practised in the Student's Book, for example reading for specific information, or gist.

Listening

There is one listening extract, followed by a series of questions. This is designed to test students' ability to listen for specific information.

When setting up this activity, ask students to read through the list of questions before they listen. Play the recording at least twice.

The recordings for the Unit Tests are on the Testbuilder CD-ROM.

Writing

In this section, students write a paragraph in response to specific questions or prompts. This tests their ability to produce written work accurately and independently.

Introduction

When setting up the activity, you may wish to divide the task into two parts to allow a brief note-making session before students begin writing.

Speaking

This takes the form of a paired question and answer session or roleplay. If you wish, you can cut out the pairwork cards so that A and B cannot see each other's questions. To do this, we recommend that you cover the speaking section when photocopying the students' tests and make separate copies of this section.

When setting up the activity, divide the class into pairs in which one student is A and the other is B. Allow students to read the questions/roleplay scenario and prepare before starting the test.

Marking scheme for Tests for Two Units

Each of the Tests for Two Units has six components and there are 100 marks available. Each test follows the same format:

Section 1: Vocabulary	20 marks
Section 2: Grammar	25 marks
Section 3: Reading	5 marks
Section 4: Listening	10 marks
Section 5: Writing	20 marks
Section 6: Speaking	20 marks

How to mark the writing

Marks should be awarded according to two main criteria:

- Relevant content: has the student covered every aspect of the question? Has he/she included all given topics?
- Appropriate use of grammar and vocabulary, including spelling.

How to mark the speaking

Marks should be awarded according to the following criteria:

- Task completion: has the student included all of the information required? Have his/her responses been relevant? Has he/she managed to communicate their ideas successfully, without ambiguity?
- Appropriate use of grammar and vocabulary
- Overall performance

It is important to judge each student separately, for example, if Student B is weak, this should not affect the mark of a stronger Student A.

End of Term Tests

There are three End of Term Tests, covering Units 1–4, 5–8 and 9–12, so that the first test should be done at the end of Unit 4, the second at the end of Unit 8 and the final one at the end of Unit 12.

As with the Tests for every two units, these tests contain Grammar, Vocabulary, Reading and Writing sections, but students are not tested on Listening or Speaking. One element that students won't have encountered in the previous tests is the Culture section. This contains ten questions based on the *Learn MORE About Culture* sections of the Student's Book. Students must choose the correct answer from a list of three options. This tests students' memory of the cultural content.

End of Year Test

The last test in the Teacher's Resource Pack is the End of Year Test. This tests grammar and vocabulary from the whole of the Student's Book. The test is four pages long and there are 200 marks available. The test should be done at the end of the course.

Test Answer Keys

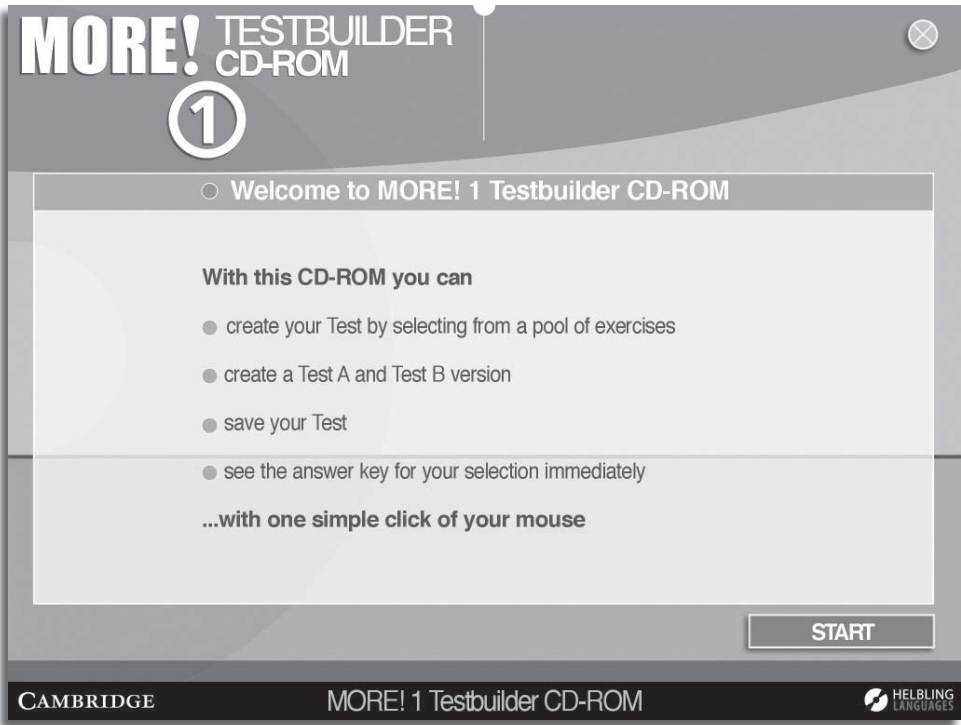

The answer keys and tapescripts for all of the tests are positioned at the end of the Teacher's Resource Pack.

MORE! Testbuilder CD-ROM

The **MORE!** Testbuilder CD-ROM contains all the tests from the Teacher's Resource Pack, plus 20% extra skills, grammar and vocabulary material. The Testbuilder allows teachers to create and save their own tests by selecting the tasks they wish to use. Teachers can choose from grammar, vocabulary, reading and writing sections and preview the number of activities and total test score. The Testbuilder also gives teachers the opportunity to create two versions of the same test so that students are unable to copy answers. The content of both tests is the same but the order of the tasks is jumbled. The Testbuilder also provides answer keys for both tests which teachers can print out and use for marking. It also contains listening material for the tests.
