

Hello!**Grammar worksheet: Numbers and colors**

Trace and say the numbers. Then trace and count.

1 2 3 4 5 6

Unit Hello! Grammar: Guidelines for parents and guardians

Point to the numbers and practice them with your child. Give the child red, green, blue, yellow, orange, and purple crayons. Point to each classroom item in the worksheet and encourage your child to count them with you. Ask about the color of each one. He/She colors the items, each in a different color. The child then traces the dotted numbers on the second half of the worksheet.
