

▶ Count and draw more pictures to make ten. Trace the number ten.

Number worksheet 10: Guidelines for parents and guardians

Point to the figure 10 on the worksheet and practice saying the number with your child (Ten). Ask your child to say the names of the food in the pictures (if he/she knows them). Explain that he/she needs to count the food in each group and draw the same food again on the right in order to make ten in each group. Help the child count and work out how many pictures to draw each time. Practice forming the figure 10 with your child. He/She can then trace the row of numbers at the bottom of the worksheet, either with his/her finger or with a pencil.
