Procedure

1. Tell students that they are going to see a list of sentences. Some sentences are correct and others are incorrect.
2. Put students in pairs and distribute the worksheets. In each pair, one student receives the Student A worksheet and the other the Student B worksheet. Tell students that they should not look at their partner's worksheet.
3. Have students work individually to check (✓) *Yes* (correct) or *No* (incorrect) for each sentence on their worksheet. If a sentence is incorrect, tell them to write the correct version in space provided.
4. Have students compare sentences with their partner. When their answers are different, they should decide which is the correct sentence – the one for Student A or the one for Student B. **Note:** For each incorrect sentence on one worksheet, students will find the correct sentence on the other sheet.
5. Review all of the sentences with the whole class. (The verbs *like*, *prefer*, and *hate* can take either an infinitive or a gerund. Accept either correction, even if it is different from the sentence on the worksheet.)
