## Home mission

Who sings best at home? Ask three people to sing *Happy Birthday* (or another song that you like). Then sing the song yourself. Give everyone a score out of ten and see who's the winner!

Emma, David, or Holly?

My name's **Emma**. I was born in Los Angeles, but now I live in Boston. I'm ten and I've played tennis since I was seven. I love sports! I don't have a pet. Last July, I went to Colombia with my family. I met my cousins there. It was great!

I'm **David** and I'm ten. I was born in Boston in the house where I live now. I have a dog, Tess. I've had Tess since I was four, and I love taking care of her. I play the drums. I began when I was six. I love music!

My name's **Holly** and I'm nine years old. I've lived in Boston all my life but in two different houses. Two years ago, I began to play the violin, and a year ago I started tennis lessons. I like music and sports, but I don't like preparing for exams!

- 1 David has always lived in the same house.
- 2 \_\_\_\_\_ has played tennis for three years.
- 3 \_\_\_\_\_ has had a pet for six years.
- 4 \_\_\_\_\_ is learning to play an instrument and a sport.
- 5 \_\_\_\_\_ has been to a different country.

## Match the joke parts

Why did the melon jump into the pond?

Why was the math book sad?

Why do birds fly south in winter?

Why did Katy throw the clock out of the window?

Why didn't the skeleton go to the dance?

Because it's easier than walking!

Because it had many problems!

Because he had noBODY to go with!

So it could become a WATERmelon!

So she could see time fly!

Choose your favorite joke and draw it in your notebook. Show it at home!

## Funny English

Funny English

once in a blue moon

You do something "once in a blue moon" when you don't do it very often.

*My grandma turns on the TV once in a blue moon. She doesn't like it.*

What do you do once in a blue moon?

## Space calculator

- You need a calculator, a pencil, and paper.
- Read the instructions and do the math. Remember to total the sum after each stage. What are you in space to discover?

1 Your spaceship has the number 1569. Put this number on your calculator.

2 You are going to go into space on December 28, so add 1228 →  $1569 + 2805$

3 Your spaceship has three parts, so multiply by 3 →  $1569 + 1228 \times 3$

4 It's time to leave and count down! So subtract 10 →  $1569 + 1228 \times 3 - 10$

5 You're traveling with two astronauts, so multiply by 2 →  $1569 + 1228 \times 3 - 10 \times 2$

6 There are eight planets in our solar system, so add 8 →  $1569 + 1228 \times 3 - 10 \times 2 + 8$

7 The International Space Station is 350 kilometers above the earth, so add 350 →  $1569 + 1228 \times 3 - 10 \times 2 + 8 + 350$

8 350 kilometers is 218 miles, so add 218 →  $1569 + 1228 \times 3 - 10 \times 2 + 8 + 350 + 218$

9 After two days, you get to the ISS, so multiply by 2 →  $1569 + 1228 \times 3 - 10 \times 2 + 8 + 350 + 218 \times 2$

10 You go around the Earth 16 times a day: that's 64 times in four days. Add 64 →  $1569 + 1228 \times 3 - 10 \times 2 + 8 + 350 + 218 \times 2 + 64$

11 You fall asleep and dream that you're 40! So add 40 →  $1569 + 1228 \times 3 - 10 \times 2 + 8 + 350 + 218 \times 2 + 64 + 40$

- Write the result of your sum here: \_\_\_\_\_
- Now, use this chart to break the code and write the word. The word is \_\_\_\_\_.

|   |   |   |   |   |
|---|---|---|---|---|
| 0 | 3 | 4 | 8 | 7 |
| s | h | o | e | l |

- Use the word above to complete what you are in space to discover. I'm in space to discover black \_\_\_\_\_.
