

# 5

## Grammar worksheet: The (ball) is in the bathtub.

Choose. Then circle and say.

## Unit 5 Grammar: Guidelines for parents and guardians

*Practice making sentences about the pictures with your child (e.g., The teddy bear is on the bed.). Then take turns to choose a picture at random, without saying which it is. Whoever's turn it is makes a sentence about the picture and the other person finds and points to the correct picture. Your child can also circle the pictures. Or you can make two copies of the worksheet, cut out the pictures to make cards and play Snap! or Pairs.*
