

# LIVING ROOMS

**Aim:** Give Ss practice asking and answering questions about furniture.

**Preparation:** Make one copy of the worksheet for every two Ss.

Cut the copies in half.

**Comment:** Use instead of or after part C of the Word Power on page 46.

- Ss work in pairs. Give Picture A to S1 and Picture B to S2 of each pair.
- Set the scene and explain the task. Ss have pictures of living rooms. They take turns asking questions about their partner's living room and complete the list of furniture in the room, writing how many – if any – there are of each item.
- Point out that Ss cannot look at each other's pictures.
- Write this conversation on the board:  
 A: Does the room have armchairs?  
 B: Yes, it does. It has two armchairs. OR  
 No, it doesn't.  
 Then model the task with a S.
- Ss complete the task.
- Then they look at each other's pictures to check their answers.
