

A DALÍ CLOCK

Level: Primary 6th Year (Natural Science)

Time: 2 sessions

Materials:

✔ clay or plasticine

Salvador
Dalí

© Salvador Dalí, Fundació Gala-Salvador Dalí, DACS 2018

FUN FACTS

- ✔ Dalí's parents thought he was the reincarnation of his dead brother.
- ✔ He was expelled from arts school in Madrid.
- ✔ He and his wife moved to America to escape World War II.
- ✔ He produced more than 1500 paintings as well as drawings, sculptures, short films and books.
- ✔ He hated England and refused to paint a portrait of a famous actor there.
- ✔ He took his pet wild cat everywhere with him.

**Basic description:**

During today's session we will create a Dalí clock. We will start by presenting Salvador Dalí. We will ask what they know about him. After this short introduction, we will explain the steps to follow.

Lesson Plan:

First session: (15 min) Explain and talk to your children about Salvador Dalí.
(30 min) Steps 1-2 should be completed in the first session.

Second session: (30 min) Steps 3-5 should be completed in the third session.
(15 min) Close the session with a game related to the topic

Game:

Play a game with the points of the compass. Ask pupils to stand up and face the board. State that this direction is North. Call out points of the compass, including *north-east*, *north-west*, *south-east*, *south-west*, and pupils must turn in the correct direction. If they are incorrect or hesitate, they are 'out'. The last pupil 'in' is the winner.

Learning Outcomes:

- ✔ Knows the points of the compass.
- ✔ Makes three-dimensional works planning the process and choosing the best way of doing it.

Step 1

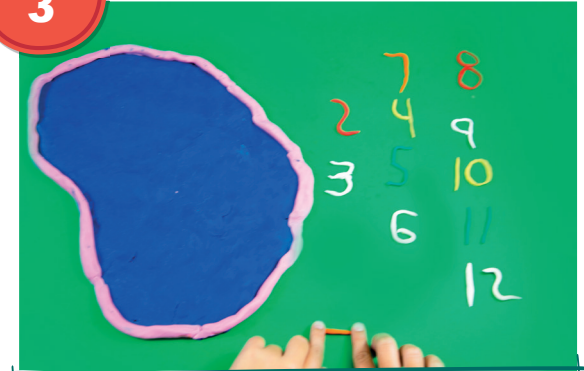

Shape the clay or plasticine to make a melted clock face.

Step 2

Make and add a border to the clock.

Step 3

Make numbers 1 to 12 in plasticine and put them on the clock face.

Step 4

Make and put the hands on the clock face.

Step 5

Compare your clock to your classmates'.
