

Kim's Game

Aim: Improve Ss' ability to remember vocabulary.

Level: Intro

Preparation: Bring objects (or pictures of objects) to class.

Comment: Use to improve vocabulary.

- Put the objects on your desk and cover them.
- Explain the task. Uncover the objects and ask Ss to look at them for three minutes. Then cover them. In pairs, Ss list the objects they remember. Set a three-minute time limit.
- Ss complete the task.
- Uncover the objects. The pair with the most correct words wins.

Variation 1: Write words on the board. Then erase them.

Variation 2: Put a picture with a lot of details on your desk. Ss use a specific structure (e.g., *there is/there are*, prepositions of place) to write sentences about the objects.
