Unit 8 Grammar: Guidelines for parents and guardians

Read the words at the top of the worksheet and help the child match each one to one of the modes of transportation in the picture. Mime being one of the children in the picture and make a sentence/encourage your child to make a sentence (e.g., You're riding a bike). Then take turns to choose one of the children in the picture at random, without saying who it is. Whoever's turn it is makes a sentence (e.g., I'm sailing a boat) and the other person finds and points to the correct picture.
