

## QUESTION EXCHANGE

---

**Aim:** Give Ss practice asking one another about their weekends in an active way.

**Preparation:** Make one copy of the worksheet for every 12 Ss.  
Cut the copies into cards and put them in an envelope.

**Comment:** Use with parts B and C of the Word Power on page 96.

- Give one card to each S.
- Explain the task. Ss go around the class and ask their classmates the questions on their cards. Their classmates answer each question and give extra information. Ss then exchange cards and ask different classmates the questions on their new cards.
- Model the activity with a S.
- Ss complete the activity. Go around the class and encourage them to give extra information.
- Elicit things Ss learned about their classmates' summers.

**Acknowledgment:** Idea adapted from *Teaching Large Multilevel Classes* by Natalie Hess, Cambridge University Press.
