

Plate 1 *Neurodegeneration in AD.* (See Figure 4.5, page 117.)

Plate 2 *Animal model of hippocampal neuron degeneration.* (See Figure 4.6, page 123.)

Plate 3 *Motor neurons in spinal cord degenerate in individuals with ALS. (See Figure 4.7, page 125.)*

Plate 4

*Neuronal cell death in Parkinson's disease (PD) and Huntington's disease (HD). (See Figure 4.8, page 130.)*

Plate 5

*Typical vulnerable atherosclerotic plaque, prone to rupture. (See Figure 5.1, page 163.)*
