

FIGURE 7.18. Geometry of wave ripples. (A) The length and height of laboratory wave ripples as functions of the maximum near-bed orbital velocity, mean grain diameter, and orbital diameter. From Allen (1985), based on Allen (1979a) and Miller and Komar (1980). (B) The length and height of wave ripples. From Leeder (1999), after Allen (1982a).
