## License and Limited Warranty and Remedy

The Functions (code, formulas, and calendar data) contained in this book and/or provided on the publisher's web site for this book were written by Nachum Der-showitz and Edward M. Reingold (the "Authors"), who retain all rights to them except as granted in the License and subject to the warranty and liability limitations below. These Functions are subject to this book's copyright.

In case there is cause for doubt about whether a use you contemplate is authorized, please contact the Authors.

1. LICENSE. The Authors grant you a license for personal use. This means that for strictly personal use you may copy and use the code and keep a backup or archival copy also. The Authors grant you a license for re-use within non-commercial, non-profit software provided prominent credit is given and the Authors' rights are preserved. Any other uses, including, without limitation, allowing the code or its output to be accessed, used, or available to others, are not permitted.
2. WARRANTY.
  - (a) *The Authors and Publisher provide no warranties of any kind, either express or implied, including, without limiting the generality of the foregoing, any implied warranty of merchantability or fitness for a particular purpose.*
  - (b) *Neither the Authors nor Publisher shall be liable to you or any third parties for damages of any kind, including without limitation, any lost profits, lost savings, or other incidental or consequential damages arising out of, or related to, the use, inability to use, or accuracy of calculations of the code and functions contained herein, or the breach of any express or implied warranty, even if the Authors or Publisher have been advised of the possibility of those damages.*
  - (c) *The foregoing warranty may give you specific legal rights which may vary from state to state in the U.S.A.*
3. LIMITATION OF LICENSEE REMEDIES. You acknowledge and agree that your exclusive remedy (in law or in equity), and Authors' and Publisher's entire liability with respect to the material herein, for any breach of representation or for any inaccuracy shall be a refund of the price of this book. *Some States in the U.S.A. do not allow the exclusion or limitation of liability for incidental or consequential damages, and thus the preceding exclusions or limitation may not apply to you.*

4. **DISCLAIMER.** Except as expressly set forth above, the Authors and Publisher:

- (a) make no other warranties with respect to the material and expressly disclaim any others;
- (b) do not warrant that the functions contained in the code will meet your requirements or that their operation shall be uninterrupted or error free;
- (c) license this material on an “as is” basis, and the entire risk as to the quality, accuracy, and performance herein is yours should the code or functions prove defective (except as expressly warranted herein). You alone assume the entire cost of all necessary corrections.
