

DISCLAIMER

This set of programs was developed based on the author's fundamentals of jet propulsion/gas turbines/turbomachinery classes. The programs have been tested in those limited settings. All programs can be mis-used if applied in improper ways. The programs are for educational purposes only.

The programs on this CD-ROM are as-is and carry no warranty, express or implied, as to fitness for a particular purpose. Cambridge University Press and the author shall not be liable to anyone for any inaccuracy, error or omission in the programs. Cambridge University Press and the author accept no liability for loss or damage of any kind consequential upon use of this product.

By using the product you are indicating your acceptance of the Terms and Conditions.
